SAMUEL GRIERSON, Esq.,

DEAR SIR,—In your paper of the 8th instant, where you were pleased to draw attention to the business of the National Life Insurance Company of the United States of America, the figures got into wrong positions in stating the number of policies at 4,179, the correct numerals were there, but they should have been placed so as to read 4,791, that being the number of policies issued by the Company previous to May 1st. At this date (May 14) the number issued is 5,025, insuring $14,124,500.

Thanking you for your uniform courtesy, and for the candid manner in which you have written of the National, I remain, yours respectfully.

EXCELSIOR!—I have recently bought at great cost two of

THE BEST CAMERAS

IN THE WORLD.

The maker of one, J. H. Dalmeyera, of London, received a gold and silver medal at the Paris Exposition. The other is a Parallactic Solar Camera, made by the celebrated optician, Herman Rootgers, of Germany. The best judges pronounce this the best instrument in the world. With the

BEST INSTRUMENTS,

The best of light and the best materials, I guarantee Pictures to surpass any thing in the State, and to

EQUAL ANY IN THE WORLD,

Either from old ambrotypes, Daguerreotypes, or from life. I am prepared to make any size picture as good, if not better than the original from finger ring size up to full life size.

In making this announcement I would return my grateful thanks for the very liberal patronage bestowed upon me in the past, and pledge my best efforts in producing GOOD PICTURES in the future. The best judges are most pleased, and speak most flatteringly, but the pictures will speak well for themselves. Come all and see.

Those owing me for Pictures will confer a great favor by paying their bills at once, and save annoyance, if not cost.

on its Life Policies, which have paid Two annual premiums, and the same is available on such policies at next renewal to absorb loans, or reduce cash payments.

The company is now only in the eighteenth month of its active operation—yet

ROCKBRIDGE ALUM SPRINGS,

OPEN MAY 1st.

This favorite and celebrated resort, after being in complete order for the reception of guests. Some important improvements have been made to the buildings since the establishment has been in the hands of the present proprietors, and it is the purpose to keep it in a style not surpassed anywhere in Virginia.

The remarkable medicinal properties of the water is well known to the public generally, and to the springs going public.

ALTERATIVE, DIURETIC, STIMULANT, AND TONIC

There is no known mineral water equal to it. In all cutaneous conditions of the system and broken down states of the constitution, one of spasmodic and general nervous prostration, the powerful and at the same time permanently beneficial effects of this water is without a known rival among the mineral waters of the world. They also contain the ingredient in the life which class as aliments peculiar to the female constitution.

The Proprietor will have provided for the Saloon and Ball Room a first-class BAND OF MUSIC, and in general, all the features of amusement and recreation, usually found at our best resorts, will be found to be at the command of the guests at ROCKBRIDGE ALUM.

The place is within 11 to 13 hours of Richmond, Washington, Baltimore and Lynchburg, Va., and ALL IS RAILROAD. Passengers leave the same cars Cheapeake and Ohio Railroad at Goshen Station, and now and elegant stage coaches, built expressly for over a smooth and level road at once, set down the visitors at the Springs in time for dinner.

The Rockbridge Water, put up in bottles, containing all its medicinal qualities can be had at the well-known Drug houses of

JOHN H McADEN, CHARLOTTE, N. C.
WILLIAMS & HAYWOOD, RALEIGH, N. C.

who will furnish on application, pamphlets containing the analysis of the water, and letters from eminent physicians, with a few testimonials of the efficacy of the wonderful cures made by these waters.

THE DOOM OF THE RADICAL PARTY. The more sagacious and honest newspapers of the Republican party openly admit that the power of the organization is broken, and its rule almost at an end. The New York *Sun* says:

"The Republican party seems to be passing through a most dangerous crisis. The Southern elections are all against it, and if the current is not changed, its doom is certain. Three causes are working for the destruction of this great party; the conspicuous failure of Grant's administration; the universal contempt in which the Hon. Horace Greeley; and the instability of the negro vote.

After exposing the utter imbecility of Grant's administration, showing how impossible it is for the Republican party to hold control of a single Southern State except by keeping the whites disfranchised, and alluding in mournful terms to the unreliable character of the negro vote, The *Sun* makes this emphatic assertion;

"The recent elections in the South, therefore, do not more clearly indicate to the Democracy the road by which they may achieve a national victory in 1872, than they point out to the Republicans the men and the measures whereby their doom is already sealed."

The Chicago *Tribune* speaking of the detective system, in the revenue service, says the public records will sustain the assertion that, for every dollar of revenue collected through the agency of detectives, ten dollars have been diverted to other hands by fraud; that, for every case of fraud detected and punished, a score have been compounded or protected through bribes and blackmail; and that, from the beginning to the end, the detective system of the government has been a mere establishment through which the brokers in crime have transacted their business at the expense of hundreds of dollars to the United States.

A gentleman heretofore prominently connected with political affairs in Louisiana, who recently arrived in Philadelphia, gives a very encouraging account of affairs in that State. He says political bitterness has almost entirely died out, and that the people generally are turning their whole attention to business. He says the cotton and sugar crop of the State will be larger there this year than ever before, and that in all of the Southern States through which he passed on his way there he noticed every evidence of returning prosperity. So far as New Orleans is concerned, he says the city was never in a more prosperous condition, and that there is a general disposition to cease talking politics and to forget the past.

The Susquehanna Railroad war has assumed most serious proportions. President Ramsey has a force of 1,000 men at the tunnel at Bainbridge, while Admiral Fisk has about the same number encamped a few yards distant from the Ramsey force, each party determined to retain possession of the road, even it it bring about a conflict of arms. A small trestle near the tunnel has been removed, thus preventing the passage of trains, and orders have been despatched from Washington to the Fisk men to seize the road and destroy other trestles, if necessary. So imminent if the danger of a conflict, that Comptroller Allen has telegraphed Governor Hoffman, representing the necessity of the interference of the strong arm of the State. Col. Roble, of Binghamton, called out the forty-fourth regiment, which will be at once forwarded to the scene of strife. It is rumored that the Pennsylvania and Delaware and Lackawana Railroad Companies have telegraphed Ramsey of their sympathy with him in the contest, and offering the loan of $1,000,000 each to carry on the war. Mr. Fisk was arrested in Albany yesterday, and gave bail to appear and answer to a charge of conspiracy.

A correspondent of the New York *Sun* has had an interview with John Quincey Adam. The latter will accept the Democratic nomination for Governor of Massachusetts, if nominated, though he does not favor territorial expansion, thinks the Democrats will soon control the Southern States, that the Fifteenth Amendment is invalid, the signs of dissolution are apparent in the Republican ranks, that Democrats should accept negro suffrage and other inevitable results of the war, and nominate John T. Hoffman for President.

STATE NEWS.

We are informed that Mr. B. H. Sumner of Lincolnton, has taken the contract for grading the road from Cherryville to this place, and that two hundred hands will be put to work during the present month. This is welcome news to us, and we sincerely hope our prospects for an early completion of the road to this place may not be again blasted.

The skeletons recently discovered at Warrenton have been discovered to have belonged to a physician many years ago, who put them for safe keeping under the building where they were recently found.

Geo. W. Norwood, of Roxboro', Person county, a wealthy and extensive manufacturer of tobacco, has been arrested at the instance of Collector Crane of the 5th District, and bound over by U. S. Commissioner Ball, of Greensboro', to the November Term of the U. S. Court, for placing fraudulent tobacco stamps on a lot of tobacco found *in transitu* on the North Carolina Railroad.—*Standard.*

The *Standard* says Treasurer Jenkins has gone to the Sparkling Catawba Springs to recruit his health, after his arduous financial campaign of the last few months. We thought he looked puny, and no wonder. He has been trying, we suppose, to raise money enough to keep the extravagant State government running, and that is a job sufficient to break the constitution of the stoutest. We hope his strength will be so far restored as to enable him to lift the coupons of the State bonds this Fall.—*Sentinel.*

DEATH OF A MODERN SAMPSON.—Capt. John W. Russell died in Franklin county, Ky., last week, aged seventy-five years. The Louisville *Courier-Journal* says:

"He was famous among Western pioneers for his strength and intrepidity. He served in the war of 1812, was a member of the State Senate, and an intimate personal and partisan friend of Henry Clay. He was for many years a Mississippi steamboat captain. The incidents of his force of will and power of command would fill a volume. On one occasion, in New Orleans, he had a personal rencontre with the pirate Lefitte, and, unarmed, whipped him and ejected him from a ball-room. On another, while landed at Natchez, a passenger of his boat was robbed by the gang which then infested the portion of the town bordering on the river, and known as "Natchez under the Hill." By surrounding with his crew the house in which the robbers took refuge, he passed a cable around it, and under threat of pulling it, with its inmates, in the river, he compelled restitution of the money, and made himself a terror to the thieves and gamblers who then infested the river towns. Of his great strength, persons who knew him only in his later years, when enfeebled by age would have had but little conception, though when in his prime it was known from Pettsburg to New Orleans he had lifted a shaft weighing 1,647 pounds, and that he had carried across the deck of the boat an anchor of 1,812 pounds weight.

FATAL ACCIDENT.—James L. Clarke, Esq., who for many years was a resident of Columbia and an officer of the Branch of the Bank of the State, was thrown from a buggy, on Thursday, and had his neck broken. He had been for several months residing with his friend, Colonel Sid. Jones, near Rock Hill. On the day mentioned above, Mr. Clarke was on his way home from the village, accompanied by a young lady, in a buggy; and in going down a hill, a portion of the harness became disarranged, and the horse ran away, throwing the occupants of the vehicle into a ditch, Mr. Clarke was almost instantly killed and the young lady severely injured. The remains of the unfortunate gentlemen were brought to Columbia, and, yesterday afternoon, were followed to the grave by a number of his friends. His age was about seventy-three.—*Phœnix.*

RECEPTION AND SPEECH OF GOVERNOR SENTER IN NASHVILLE—SOUTHERN RAILROAD TEST CASE.—*Nashville*, Aug. 11.—Governor Senter arrived in this city on Tuesday evening, and met with a brilliant reception. He was escorted from the railway depot to the City-Hotel, where he delivered a speech in response to the address of ex-Governor Neil Brown. In the course of his remarks Governor Senter emphasized one point and that was that in Tennessee there must be no proscription on account of rebellion, race, or color; suffrage and the fullest political and civil rights must be free to all. He continued by saying that the wounds of the past must heal up, and that brotherly love and fraternal feeling was now to be cultivated all round in Tennessee. He thought the circumstances were ripe for a new party, which would discard dead issues and act upon the living present. Bourbonism on the one hand and proscriptive radicalism on the other should be ignored and set aside, and a new departure taken which would tend to liberal and progressive ideas and measures. The young men of the State, he said, carried the recent election with such impetus that the old judges were almost unable to decide how far they had gone ahead. The wisdom of age should temper Young America, but it was striding along like an Arab courser. His remarks were received with shouts of applause and approval.

Colonel Vandyne, on the part of the United States Government, is here to sue the Nashville and Chattanooga railroad for $1,600,000 for rolling stock sold by the Government to the road. The road offsets the claim by a bill of over $8,000,000 for the use of the road during the war. This will serve as a test case for a number of other southern roads.

Salt for Peach Trees.

Downing, in his work on Fruit Trees, speaks of the application of salt to peach trees as a very effectual agent for the destruction of the peach worm. He says: "In a neighborhood where the peach worm usually destroys one half the peach trees, we have seen them preserved in the healthiest condition by the annual application of a handful of coarse salt about the collar of the tree at the surface of the ground."

This tallies with my experience exactly. A few years since, having some young trees which did not present as healthful an appearance as was desirable, and having a small quanity of refuse salt on hand, I resolved to apply it to some of the unthrifty trees. The change wrought in the appearance and condition of the trees to which salt was applied, was very remarkable. The foliage assumed a dark green color, and the growth that followed was very gratifying.

Without being aware until recently, of the suggestion of Mr. Downing, I continued the use of the salt, and with the same happy result, and am confident in the belief that peach growers will find it to their advantage to adopt the method which I have found to operate so well. Whether the vigor of the tree is due to the destruction of the worms, or whether to the action of the salt, which experienced horticulturists tell us promotes the tender and luxuriance of fruit trees, I am not prepared to say. I give you the facts, leaving your readers to draw their own conclusion:—*Ex.*

SPECIAL NOTICES.

Let Us Discuss the Great Question.

What is the most important of all earthly blessings, in the estimation of every intelligent human being?

Clearly, it is HEALTH; for, soundness of body and mind is essential to the enjoyment of all the other good gifts of Providence.

How, then, shall those who possesses this inestimable treasure endeavor to preserve it, and how shall those who have lost it seek to receive it?

These questions have been asked in all ages, but never have they been as satisfactorily responded to as at the present day, and the answers which common sense, enlightened by science and experience, gives to them in the Nineteenth Century may be briefly stated thus:

To protect the system against all influences that tend to generate disease, there IS NOTHING LIKE INVIGORATION.

To re-establish the health on a firm oasis, when it has been lost by imprudence or any other cause, the system must be simultaneously strengthened, regulated and purified.

These ends can only be attained through the agency of a preparation which combines the attributes of a tonic, a corrective, a blood depurent, and an aperient.

All these essentials are effectually blended in HOSTETTER'S STOMACH BITTERS. They contain nothing drastic, irritating or inflammatory. The juices and extracts of sanative herbs, roots and barks are their sole medicinal ingredients, and these are rendered diffusible by combination with the spirituous essence of rye, the purest of all alcoholic stimulants.

The weak and feeble, and especially those suffering from biliousness, indigestion and nervousness, absolutely require the renovating aid of this powerful tonic and alterative during the heated term, and cannot prudently postpone its use for a single day. A word to the wise is sufficient.

CHOLERA.

A Cure for this disease may be found in the use of

PERRY DAVIS' PAIN KILLER.

I have used the medicine known as PERRY DAVIS' VEGETABLE PAIN KILLER in my family for the last twelve months, and have great pleasure in testifying to its very valuable properties. I would not on any account be without it. During the existence of the Cholera last year, I used no medicine of any sort but the Pain Killer, although myself and several members of my family were attacked by it severely and I am happy to say that the Pain Killer was equal to every emergency; it was both a preventive and a certain cure. I consider I should not be doing my duty to the community did I not say this much. If I were attacked by the Cholera to-day, the Pain Killer would be the only remedy I should use. I have thoroughly tested it, and know it can be relied on.

The Suez Canal is expected to be a source of great Revenue to Egypt.—The Company leaves to the Egyptian Government in future the monopoly of the postal and telegraphic service throughout the Canal, as well as the fishery of the whole of the waters, including the lakes. All these concessions of rights on the part of the Company are made for the sum of £1,200,000.

A letter from Algeria states that in a wild district, more than thirty kilometres from the sea, in a celebrated spot known as Kalaa des Beni Abbes, four pieces of cannon of the sixteenth century have been found. The finest of these pieces is in bronze, and two metres long; it is ornamented with fleurs-de-lys and a capital M. surrounded by a royal crown. The fourth, the longest, is in iron, and bears, according to the people of the district, who believe it to be of Musulman origin, an inscription signifying that it is the work of the pilgrim Abdallah, a Christian.

The Emperor Napoleon must be a singular being if we are to credit all that we hear of him. A new sketch describes him as not liking discussion. "He listens without answering. He interrogates in order to prepare his reply, but not to receive advice. It is often at night that he makes up his mind, and as soon as he awakes he writes to dismiss a minister or issue a manifesto. He believes in himself—which is strength; but in himself alone—which is weakness. Nevertheless, he is accessible to all modern ideas against which he never raises an objection.

The following singular story is told abroad: A man, who was years ago one of the notorieties of Europe, has just died at Brussels. His name is Cantillon. He was a Sergeant in the Old Guard of Napoleon, and fought through the campaign of Waterloo, quitting the army after the capture of Paris. After the execution of Ney and Labedoyere, thirty or forty of the non-commissioned officers of the Old Guard conceived the idea of assassinating Wellington, whom they regarded as the chief author of the evils that had befallen France. About the end of December, 1815, a pistol shot was fired at the Duke in the streets of Paris, but missed him. Cantillon was suspected and tried, but the proof was not clear, and he was acquitted. It was to this man Napoleon left a legacy of £400, which was paid in 1828.

The committee formed by the Commissioner of Internal Revenue to decide whether the present whiskey stamps would answer the requirements of the revenue service, and if not, then which of the competing stamps shall be adopted, have, after several weeks' examination of new devices, decided that no better plan is offered than that now in use by the Bureau, and recommend a continuance of the present stamps.

HOW TO PURIFY A ROOM.—To purify a room—and all rooms need it regularly and often—set a pitcher of water in a room, and in a few hours it will have absorbed all the respired gas in it, the air of which will become pure, but the water utterly filthy.—The colder the water is the greater capacity to contain these gases. At the ordinary temperature a pail of water will contain a pint of carbonate acid gas and several pints of ammonia. The capacity is nearly doubled by reducing the water to the temperature of ice. Hence, water kept in a room a while is unfit for use. For the same reason the water from a pump should always be pumped up in the morning before any of it is used. Impure water is more injurious than impure air. The above proves how exceedingly careless many of us as are as regards our health, for we venture to say a large majority of the people use water for drinking which has "absorbed" for hours the noxious gases of their rooms.

☞See notice of property to rent. This is a very desirable place, and to any one who would like to keep a few cows or raise vegetables for market offers good advantages. There are four acres of land now in a high state of cultivation. A good orchard, with an abundance of excellent apples; a fruitful garden and a well of pure and cool water in the yard. The house is not attractive outside, but the internal arrangements are convenient and comfortable. It contains five rooms and out-buildings for a good sized family.

The property is just opposite the Female College and within 15 minutes walk of the public square. It will be rented with the growing crop, and two cows either sold or hired with it. Possession given to suit the renter.

Cubans here have advices up to the 5th inst., containing Gen. Jordan's report of the engagement near Holquin.

Valmeseda being reinforced determined upon surprising the Cubans. Gen. Jordan was fully advised of the movement and prepared to meet it. He advanced a small force to lead Valmeseda into an ambuscade; the stratagem having succeeded and Valmeseda's forces being thrown into confusion, Jordan charged, and forced them into a disorderly retreat. It is Jordan's impression that the negroes broke on the first attack.

This fight destroys Valmeseda's army giving to the Cubans control of the entire Holguin District. The Spanish loss is estimated at 170 killed and wounded and over 700 captured and deserted.

Tennessee.

NASHVILLE, Aug. 14.—The United States Senatorship is exciting general interest, Emerson Etheridge and Andrew Johnson and the prominent candidates for the position.

THE BALTIMORE
PARLOR HEATERS,
COOKING STOVES,
COOKING RANGES,
HOT-AIR FURNACES, &c.

S. B. SEXTON'S CELEBRATED
PATENT BALTIMORE PARLOR HEATERS
AND GAS BURNERS,

the attributes of Bituminous coal, have been in successful operation for the last four years, and have proved to be the best Parlor Heaters now in general use in operation. They are also found to be generally used, often in the place of furnaces, for heating the lower and upper rooms in dwellings and offices. Two or three Stoves heating the largest dwellings, and besides, are quite ORNAMENTAL and ILLUMINATING, having all the beauty and cheerfulness of an open grate fire, but are more ECONOMICAL, CLEANER, and RADIATING A LARGER AMOUNT OF HEAT. We can refer to thousands of families who have them in use.

We manufacture our own COOKING STOVES, and we guarantee them to be equal to any sold for *baking* and *cooking*. We have Stoves to take in *long wood* and with *large ovens*, and are *superior Stoves for baking*. We are getting out some new patterns of Cooking Stoves, that will burn *Bituminous coal, hard coal, or wood*. They will have a beautiful finish, and will stand among the No. 1 Cook Stoves. Our Cooking Stoves are Baltimore made, and we guarantee the plates. Our Cooking Ranges are pronounced the best and cheapest in the market.—Baking of all kinds can be done in our Ranges as quickly and equally as well as in a Brick oven. We will manufacture S. B. SEXTON'S new patent Hot Air Furnaces, warranted to burn from 30 to 70 hours with once filling.

Thankful to our friends and the public for their past favors, we solicit a continuance of their patronage.

K O S K O O !

THE GREAT REPUTATION

Which Koskoo has attained in all parts of the country as

A GREAT AND GOOD MEDICINE

has induced Dr. [illegible] to enlarge his Laboratory and facilities for manufacturing, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS

which are constantly being received from Physicians and persons who have been cured by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

AS A BLOOD PURIFIER IT HAS NO EQUALS

BEING POSITIVELY THE

MOST POWERFUL VEGETABLE ALTERATIVE

YET DISCOVERED

DISEASES OF THE BLOOD.

"The Life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true—The people talk of bad blood, as the cause of many diseases, and like many popular opinions this of bad blood is founded in truth. To say boldly, of those humours that are hereditary, we can easily see how the blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes [illegible] and frequently covered with a pasty white coat. This condition soon shows itself in roughness of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human families are effected to some more or less extent.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, health and vital strength will return to you.

K O S K O O !

AS A

LIVER INVIGORATOR,

STANDS UNRIVALLED

BEING THE ONLY KNOWN MEDICINE

that SUFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the Kidneys, without PROSTRATING the system. While it acts *freely* upon the Liver *instead* of *copious purging*, it *gradually changes* the diathesis *to a perfectly natural state*.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF SOME OF THOSE DISEASES PRODUCED BY IT,

A sallow or yellow color of the skin, or yellowish brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat, in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the [illegible] blood; a full feeling about the stomach and sides, amounting to pain in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, dizziness, coldness of the extremities, &c.

K O S K O O !

Is a remedy of REMARKABLE EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near a SPECIFIC as *any remedy can be*. It does its work *kindly, silently, and* SURELY. The RELIEF which it affords is both *certain* and *perceptible*.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the importance of their healthy action.

Regular and complete action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the blood those effete matters, which if permitted to remain would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the Urine being imperfectly secreted in the Kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the

K O S K O O !

Has met with GREAT SUCCESS (as hundreds of certificates will show), in the CURE of

DISEASES OF THE NERVOUS SYSTEM.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant ills of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering today with broken-down nervous systems, and [illegible] unfortunately, tobacco, alcohol, late hours, overwork, mental and physically are the causes of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows; A dull severe pain or headache; Periodical Headache, Dizziness, Noises in the head; Confusion of Ideas; Temporary loss of Memory; Delusion of Spirits; Nervous dreams; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms; &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Imbecility, Epilepsy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured—remember that God, in His Providence, has not suffered his children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.

Send no hesitation in writing to me, and stating your case in full, and I will answer you promptly.
